Answer to question to public tender "Market Trends – Nature as a Driver for Sustainable Tourism and Local Development":

Question 2

Can you elaborate on the purpose and content of the workshop:
What kind of input/knowledge is expected of the external consultant,
and what kind of input/knowledge will the project partners provide?

Answer

The workshop is intended to give an overview of what existing knowledge the partners in the project already have and/or what data may be available through the partners. It may be local/regional/national surveys or reports. The project partners extract data from regional surveys and studies and report to the consultant. We expect the consultant to facilitate the workshop.
